Backus Wound Care and Hyperbaric Medicine Center

111 Salem Turnpike • Norwich, Connecticut 06360

(860) 425-8700

Member of the American Professional
Wound Care Association

Backus is the only center in eastern Connecticut which offers state-of-the-art hyperbaric chambers.

These chambers create a safe, oxygen-rich environment that encourages tissue growth and speeds the healing process.

You no longer have to suffer with a wound that won't heal.

The Backus Wound Care and Hyperbaric Medicine Center offers hope and support for persons with chronic, non-healing wounds.

Located in a new, spacious outpatient center, our Backus team of board certified physicians and certified wound specialist nurses are trained in advanced wound care and hyperbaric medicine.

Backus is the only center in eastern Connecticut which offers state-of-the-art hyperbaric chambers that can speed up the healing process and enhance tissue growth and repair.

Chronic wounds are those that have not shown healing in 4-6 weeks.

We at The Backus Wound Care Center specialize in treating non-healing wounds associated with:

- Swelling of the lower leg and foot
- Diabetes
- Poor blood flow
- Pressure
- Injury
- Infection
- Burns

Hyperbaric Oxygen Treatment (HBOT) in an adjunctive therapy for wounds that have not healed due to a variety of reasons. At The Backus Wound Care and Hyperbaric Medicine Center, our staff will help determine whether hyperbaric oxygen treatment is appropriate for you.

If you or a loved one is suffering with a non-healing wound, please contact us today at (860) 425-8700 for an appointment or further details.

Our Center offers additional Backus-affiliated services including, endocrinology and diabetes management, nutritional counseling, as well as interventional radiology services.
